## Optimizing Your Overall Broadband Experience

HSPA vs. CDMA – Faster speeds when outside LTE coverage

**AT&T**

**Verizon**

AT&T is also the only carrier that offers two layers of network technology that deliver 4G speeds: LTE and HSPA+. You'll enjoy fast 4G speeds on both the HSPA+ network and on LTE where available. That means a smooth and consistent 4G experience.

**\*AT&T is the only network that allows Enhanced Push-to-talk on 3G, 4G and 4G LTE networks!**

# AT&T

## iPhone with Unlimited Data

### iPhone 5

- iOS 6, the world's most advanced mobile operating system, which is also compatible with iPhone 3GS, 4, 4S, as well as iPad 2 and the new iPad
